Têxteis Penedo, S.A.

“It is the culmination of an effort and research that lasted for around 10 years, with which we dream of improving the quality of life and well-being of Humanity”
Xavier Leite (CEO)

“It is a development that has, at its heart: preserving Nature and, in fact, for Nature and its benefit”
Xavier Leite (CEO)

Romac - Wall Coverings / Mural / Arts

Anand Goenka
Heimtextil2024
Hall 3.0 Stand H82

WOW

heimtextil

Romac

1. Fabric-not paper
2. Water resistant
3. Good light fastness
4. Fire retardant on order
5. Cover the wall with artistic design rolls that continue seamlessly
6. Can be cleaned with mild soap and water
7. Size of one roll - width 53"x height 118.11"
8. Size of entire Mural - (1x4) - 212" x 118.11"

Romac

“In the heart of an enchanted jungle, where emerald leaves whispered secrets to each other and fantastical creatures roamed freely, a dreamy scene unfolded like a canvas painted with magic. Bathed in the gentle glow of an otherworldly moon, this surreal paradise become the setting for an extraordinary encounter with mythical beings”

Trevira CS & advanced recycling

Svenja Fromm
Hall 4.0 Stand C15

WOW

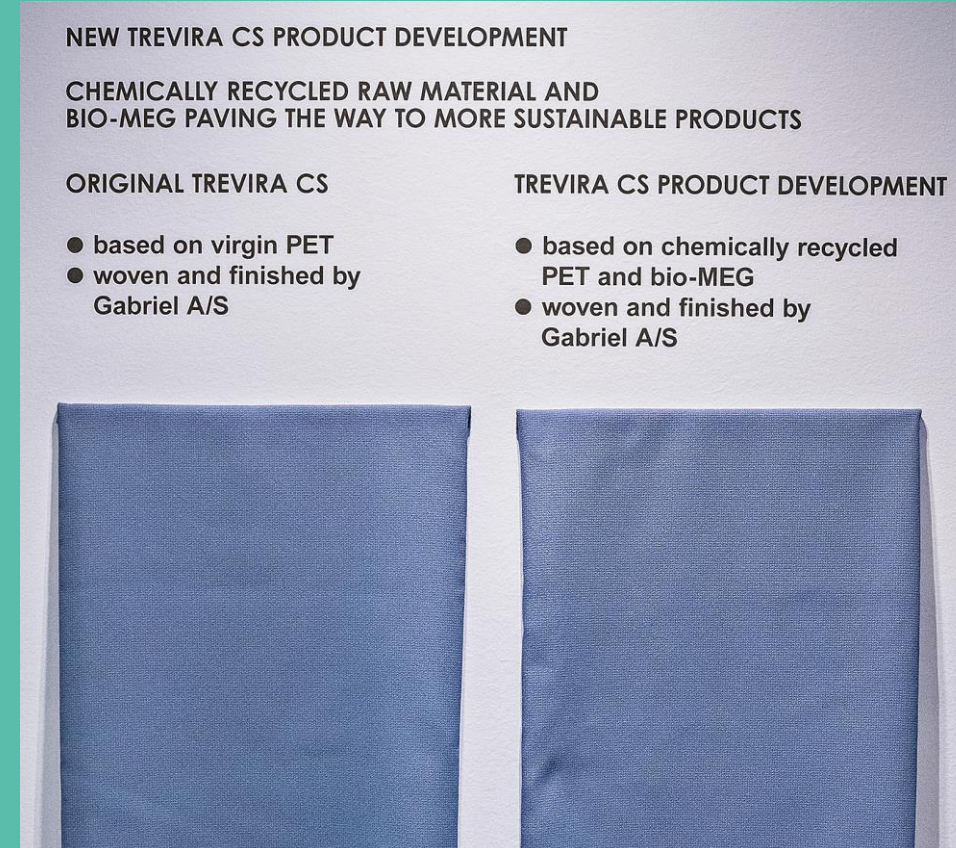

WOW

heimtextil

Indorama Ventures

1. **Trevira CS** - not only permanently flame retardant, but also sustainable textiles
2. **The technology**
 1. Conserving resources - water, energy, chemicals, additives etc
 2. Environmentally friendly - organophosphorus compound used, which is indelibly embedded in the molecular chain of the fibre
3. **The sustainable variants** - with at least 50 % recycled material (GRS-certified)
4. **Durability** - permanently flame-retardant, no retreatments, no short life cycle
5. **The take-back concept** - used materials or residual goods can be mechanically recycled
6. **Advanced (chemical) recycling** - enabling a circular economy. Trevira CS has already successfully passed tests

Indorama Ventures

Trevira CS –
trademark tested,
safe,
forward thinking,
reliable

Greenhome Furnishings

Problem :

The menace of Single Use Plastic :

- 50% of the world's plastic is single use oriented
- One million PET bottles / minute are being used
- PET bottles take 450 years to decompose naturally
- By 2050 there will be more plastic by weight than fish in oceans

Greenhome Furnishings

Solution :

- Greenhome doesn't use virgin polyester, we use only rPET.
- REKLAIM bed linens are made of rPET from, used PET bottles
- Results in reduction of landfill space and CO2 emissions
- We use self fabric bags for packaging
